

# ENERGY WISE

for your Home

## 2024 DISCOUNTED RATES AND REBATES FOR YOUR HOME

### Air Source Heat Pump

- » Pay only **9.45¢** per kWh (vs. 13.13¢) for all your air conditioning needs and only **6.51¢** per kWh (vs. 12.13¢) for all your heating needs.
- » Rebate up to **\$1,000**.

### Electric Vehicles

- » Time-of-Day rate as low as **6.8¢** per kWh during off-peak.
- » Subscription rates as low as **\$30/month**.
- » Rebate of **\$500** for qualifying level 2 chargers.

### Wi-Fi Thermostats

- » Receive **\$30** credit in summer savings (June-August).
- » **\$25** rebate for qualifying thermostats.

### Peak-Time Rebate

- » Help us save energy on days when it is most expensive for energy to be produced, and we will pay you **\$1 for each kilowatt-hour** of energy you save when compared to your normal usage.

### Ground Source Heat Pump

- » Rebate of up to **\$600** per ton for qualifying ground source heat pumps.

### Electric Water Heating

- » Choose from one of four programs offering discounts on electric rates.
- » **\$100** rebate on qualifying electric thermal storage (ETS) water heating systems.
- » **\$500** rebate on qualifying heat pump water heaters.

### Heat Storage

- » Heat storage can supply 100% of your home's heating requirements or can be used as a supplement to another heat source. It's also a favorable option for new additions, slabs-on-grade, workshops, and garages.
- » Rate of **4.9¢** per kWh (vs. 12.13¢) when in use.

### Dual Fuel

- » Discounted rate when the primary heat source is electric and can be supplemented during peak demand periods with an alternate heat source.
- » Pay only **6.51¢** (vs. 12.13¢) per kWh (October-May).
- » May qualify for sales tax exemption.
